

A Personal Message From

David N. Green, D.C.

Please be assured that we are doing everything that we can to minimize exposing our patients and staff to the Covid-19 virus. All patients are required to wear masks prior to entering the office. We have added an additional touch free sanitizer upon entry and ask that you sanitize your hands upon entering the office. In addition we have added a touch free Purell soap dispenser in the bathroom. Each room is equipped with sanitizer and each table is cleaned with a disinfectant wipe before use.

At the same time we are asking that you help us minimize exposure by informing us immediately if you are experiencing flu like symptoms or are experiencing fever, coughing or shortness of breath or if you have had contact with anyone who has tested positive.

Remember we are all in this together and together we will get through it.

Together in Good Health,

David N Green, DC
